ezFrame Series

- Premium Cinema Fixed Frame Screen
- Home theater Fixed Frame Projection Screen

FEATURES & BENEFITS

- Award winning Home Theater Screen with full tension uniformity
- Models available with CineWhite 1.1 Gain, CineGrey 1.0 gain, Wraith Veil (rear) 2.2 gain, and AcousticPro1080 (sound transparent) 1.0 Gain material
- Black velvet surfaced 2.36" anodized aluminum angular frame enhances picture contrast
- Easy to assemble and install in minutes
- Sliding wall mounts ensure the installation is properly centered
- Available in 4:3, 16:9 and 16:10 aspect ratios
- Diagonal sizes ranging from 84" - 226"
- Custom sizes are available

Quality and Reliability

- Standard 2-year parts and labor warranty
- 3-year warranty for GEMR (Government, Education, Military and Religious) - US only
- ETL, FCC, CE, CB GOSTCE & ISO9001:2008 Certified

Custom Size Orders can be requested at
www.elitescreens.com/csr

Choose from CineWhite, CineGrey, Wraith Veil, PowerGain,
and AcousticPro1080.

CineWhite Tension Screen Material has a wide viewing Angle in 1.1 Gain, suitable for most applications including commercial and home theater presentations.

CineGrey Tension Screen Material is best for those using low contrast ratio (LCD) projectors in a home theater environment and need to improve picture black levels.

Wraith Veil Elite's rear projection screen material comes in 2.2 high gain to be used in ambient light environments, such as tradeshows, meeting rooms, and outside evening presentations. Its special surface coating enhances color reproduction and black level reproduction with wide diffusion for multiple applications. Optional seamless screen sizes are available up to 200" in 4:3 and 16:9 aspect ratios.

Elite's **AcousticPro1080™** material is designed for use with a native 1080P front projector. It has a special fabric weave for acoustic transparency that greatly reduces light penetration. It is a 1.0 Gain matte white mesh material with outstanding sound quality, damping at 20 KHz only 2.0dB and Max. Attenuation at 20cm is around 1.1db. The side-weave mesh pattern has only a 8% light loss, and coated fabric provides true color rendition to ensure both audio and video quality with each presentation. The Elite AcousticPro1080™ Woven Acoustically Transparent Screen is your best choice for use with high quality in-wall audio installations and 1080P projectors and has a detachable black-backing on its fixed frame models.

Easily attached Frame Tension System, allows perfect tension uniformity with a simple procedure. Standard Black Backed Screen Material prevents light penetration for superior color reproduction.

The aluminum Sliding Wall Brackets provide the installer with a simple solution to screen installation and adjustable horizontal centering.

Standard 2.36" Black Velvet Surfacd Frame enhances the perceived brightness of the projection image with superior contrast and color reproduction for sharper picture quality. Wide-Borders also absorb light overshoot to professionally matte your presentation.

"I found that it had a decent reflectivity to it, but didn't suffer too much from hot spotting (which obviously you would expect from a lower gain screen), nor did it have any sparkles or other anomalies to it. Elite certainly has a good idea here. Good performance, good build quality, and good features in a screen, for a lower price point."

AV Science, NY

fixed wall projector screen is much over double the price. Color was virtually identical, but yellows did appear just a touch stronger than on the Firehawk®. This was very close and not an issue. Overall color was very good. With a 100" 16:9 Elite ezFrame screen selling for about half of a Da-Lite Cinema Contour with ProTrim (their fancy velourish border), and barely a 1/3 of a Stewart Luxus Deluxe, it allows home theater people to own an attractive looking fixed wall screen, with good performance, at a price that simply isn't available from the larger established brands.
